Dominion Election Sept. 4th

Town Council Meeting Held Tuesday Night

Tuesday evening a regular council meeting was held with acting mayor Schulte presiding and Councillors Bailey, Quinn, Moore, and Miner present.

The minutes of the last meeting were read and confirmed.

The matter of organizing a volunteer fire brigade has been under consideration for some time, and the acting mayor was very much pleased to be able to report that M. A. B. McFarland would accept the position of Fire Chief, and undertake the organization of the brigade.

The information was very welcome to the members of the council, who knew of Mr. McFarland's electrical experience, which will be very valuable in case of fire, after the town is supplied with electrical energy.

Mr. McFarland has also had much experience in northern Alberta in the Forewinding district in connection with local fire brigades.

Upon motion he was authorized to proceed with the organization work. Secretary-treasurer Wears had received title to the property used as a cemetery, which document was scrutinized by the members of the council.

The secretary read the report received from Provincial Board of Health in regard to sanitary conditions in general in Strathmore, and noted the recommendations that were made.

The sanitary conditions are exceedingly good, with only two recommendations to which the local medical health officer, Dr. Moore, will give his personal attention.

One point that the Provincial sanitary inspector did not endorse was the change made in the collection of garbage from the community plan to that of individual work by each ratepayer.

However, the councillors think that the present method is more economical, and worthy of a fair trial before being condemned.

A communication was received from Bow Valley Municipality offering to cooperate in regard to establishing a rest room. The Council felt that the offer was inadequate but worthy of further negotiations in an effort to meet the conditions, and the matter was referred to the Property for further consideration.

Auditor Cope reported that he had completed the half year audit and found everything in first class shape.

Mrs. Ella Wray offered to purchase a lot adjoining the house lately occupied by Mr. John Mackenzie, which she had recently bought. The offer of \$150 was accepted, upon condition that she pay all legal expenses in connection with the transfer.

The offer of Mr. Fred Cott of \$400 for lot 18 in Block 4 was accepted. The tender of Lloyd Orr for wiring the Town Hall for electric light was accepted.

The 10 per cent. discount period having expired on July 20th, the Council decided to grant a 5 per cent. discount upon all taxes paid on or before Sept. 1st, after which date no discount will be allowed.

A destination case was brought before the meeting and referred to a Committee of Money and Taxes to act. A report was received in regarding the work in connection with the Cemetery.

A motion was carried instructing the Secretary-Treasurer to take action at once against any who have not paid the minimum school tax of \$4.00 and also against any who have failed to take out necessary licenses. There are to be no exceptions so all liable had better act early or they will find themselves saddled with extra ex-

pense as well as having to pay.

Another point emphasized in connection with all electrical work being done, that a permit must be secured from the Secretary-Treasurer whenever the work is done by an Electrical Contractor or by the owners or tenant of any building that is being wired.

ARDENODE

A meeting of the Ardenode U.F.W.A. was held at the home of Mrs. Jensen. After dispensing with the usual business an interesting Bulletin was read and discussed on District Building.

Mrs. Horrocks then gave us a paper on Co-operative movement, how the first co-operative movement started in England in 1842 by 28 poor mill weavers who had saved their pennies for a year and a half and opened their first co-operative store, no enterprise ever having a smaller beginning, yet they laid the foundation of a most successful business. The savings of their members today amounting to a billion dollars a year.

Denmark and California were also named as prosperous through co-operation. Co-operating in the home was then dealt with, showing how the foundation of civilization rested on God, Home and Country. The home having the very heart and soul of it and the fine spirit of Jesus Christ.

Co-operative movement among the farmers of the west was started in 1899, when the Society of Equity was formed with a membership of 2,000 scattered over the province, showing a contrast to the present day membership of the U.F.W.A. with its U.F.W.A. and Junior membership of 28,000.

In answer to "What have the U.F.A. and U.F.W.A. done?" the speaker gave the following facts:

Prevented the arbitrary fixing of the price of wheat in 1919 at \$1.20 per bushel, as proposed by Sir George E. Foster, to \$2.21 per bushel, a saving of 91c per bushel. Secured a special freight rate. Secured a reclassification of lands in the western irrigation block, meeting a saving of \$2,000,000 to the farmer. The U.F.W.A., through co-operation with the University of Alberta, had secured a week of studies for farm young people. In 1919 secured a reduction on the commission fee on oats from a cent per bushel to five-tenths, also secured a price as seedlings, better prices for milk and cream shippers. In 1913 the constitution was amended to admit women as members, since then the U.F.W.A. have co-operated closely with the U.F.A., making rapid progress.

A delicious tea was then served by the hostess, and everyone went home feeling they had had a most enjoyable afternoon.

Next meeting will be held at the home of Mrs. P. Dinkin July 28th. Everybody welcome. Mrs. Jensen will be responsible for the program.

WESTERN POOL OFFICERS NAMED

OTTAWA—One hundred and ninety-eight returning officers out of a total of 245 have been appointed. The rest will be appointed shortly.

Alberta appointments are:
Bow River—Herbert J. Maber, Vulcan.
Calgary East—Nathaniel M. Spankie, Calgary.
Calgary West—Sam J. Blair, Calgary.

G. G. COOTE, M.P.
The Progressive Member for MacLeod, Alberta, is conceded to have held the balance of power during the last stormy hours of Parliament before the Liberal Government resigned. He voted once with the Conservatives and twice with the Liberals.

NEW MANAGER FOR LETHBRIDGE—A. J. McLean, former minister of public works in Alberta, has been appointed manager of all the big ranch and farm land holdings of the estate of the late George Laine in Alberta. This includes the famous Bar U ranch.

LOCAL NOTINGS

Penny postage came into effect on Dominion Day. When you are sending your letters don't overlook that fact.

A penny stamp will do the work formerly done by a three-cent stamp. However, a one-cent stamp will not do the work of a two-cent stamp in carrying town delivery letters. The worst postage still rules on letters for local delivery.

Mrs. J. A. Poirer, (nee Elizabeth Bear) and little son, of Windsor, Ont. are here on a visit to her parents Mr. and Mrs. Fred Beus.

Agent Perry and wife are spending their vacation in Ontario. It is safe to say he won't have a good night's sleep until he has some thought to return to Sunny Alberta.

Miss Ellen and Mr. Clarence Garriott spent an enjoyable visit last Thursday and Friday with Mr. and Mrs. H. Clark and family of Rosebud.

Col. Myatt, of Vancouver, is back in town this week awaiting the arrival of a supply of chemical, with which he will give the obnoxious weeds in the town park a course of treatment that promises to eliminate them. The Department of Agriculture at Edmonton, are very much interested in the experiments he made in Edmonton, and are promoting the close cooperation in the work of weed destruction, the importance of which they fully realize, and have been making strenuous efforts to combat.

Tuesday night the Town Council depulped Councillors Moore and Miner local after a case of repulped destination. By Wednesday noon these Councillors had looked into the case and secured a home for the woman and the child. This was fast work, and the Councillors deserve special credit for their promptness.

Dr. Moore has been helping the Brownlee Government by giving his attention to the arrival of a brand new voter at the home of Mr. and Mrs. Harvey Hansen, near Namaka. Harvey hopes he will be assisting him in his U.F.A. work in the near future.

HON. R. B. BENNETT
Minister of Finance in the new Western Canadian Cabinet.

BENNETT WILL HANDLE WESTERN CAMPAIGN

OTTAWA—Hon. R. B. Bennett is leaving for the west this week to take charge of the Conservative campaign on the prairies. It is announced that he has given up his corporation retainer since accepting office as minister of finance.

It is now definitely settled that former Premier Mackenzie King will seek re-election in Prince Albert, Saskatchewan.

The Woman's Institute will hold a Bakeshop Demonstration in the basement of the Union Church on July 28, 29 and 30, morning and afternoon classes; open to all, under the management of Miss Peake, a very skillful teacher. All wishing to join, report to Mrs. N. White or Mrs. Zerkle.

Miss Audrey Buscumb of Calgary was the weekend guest of Miss Esther Zerkle.

Constable Tate has returned after spending a nice holiday in Banff and vicinity. He and his family proposed making the Windermere trip, but were held up owing to the forest fires. He reports having had a most enjoyable outing, and has come back feeling and looking fit as a fiddle.

Mr. John Cope returned to High River on Monday, July 19, after having outlived the books of the town. Mr. Cope states that he found everything in good shape.

The business of R. W. Gardner, of the Strathmore Dairy, has been developing so that he finds it necessary to employ a laborer in connection with it, and has associated with him Mr. H. Nelson, of Ceres, one of the most successful and experienced dairymen in the Province of Alberta. Mr. Nelson was here this week and is delighted with the town and district. He returned to Ceres, where he will dispose of his herd or bring them to Strathmore next month.

Several requests have been made to the Canadian Pacific Railway to make Strathmore a flag stop for train No. 11, leaving Strathmore daily at 1:00 a.m. Word has just been received that this concession has been made, which will be a very great convenience to many who wish to spend the week end at Banff and Lake Louise. The railway officials keep a close tab upon the number of people who avail themselves of this service, and whether it is renewed or not will depend upon the patronage.

Miss Ellen Garriott, who has been in Calgary for the past few months, is spending a three weeks' holiday in his U.F.A. work in the near future.

Crop Outlook of the West Very Favorable

WINNIPEG—The Canadian Pacific agricultural department reports that the general crop outlook at present is quite favorable and while a few districts report adversely, prospects as a whole are quite promising and better than average for the past ten years.

Sir James Lougheed's Will

Clarence Hardisty Lougheed, Elder Donald Lougheed, and Edmund Taylor are applying for auxiliary probate of the will made August 16, 1923, by Sir James Alexander Lougheed, Senator from Calgary, who died in Ottawa November 2, 1925, leaving property of a gross value of \$1,521,100 and \$49,218 net. The reality, consisting largely of properties in Calgary, is valued at \$1,288,770, but is subject to mortgages and taxes amounting to \$551,054, leaving equity of \$737,716. The personality includes \$511 cash, \$4,500 in household goods and personal effects, \$12,000 insurance payable to the widow, \$45,000 in bonds, \$15,872 in stocks, and \$8,811 in miscellaneous assets.

The Ontario estate is made up of 235 shares preferred stock Canadian General Electric, valued at \$16,316; two shares Country Club, Ottawa, and 10 Connaught Park-Jockey Club, transferable to members only and entered at the nominal value of \$2, and household goods in the estate, \$500.

To his widow, Lady Belle Clark Lougheed, Sir James left the use of the family residence in Calgary, and to Edmund Taylor, one of his executors, an annuity of \$2,000. The five children, Dorothy L. Hussey, Clarence H. Norman, Edgar R. and Douglas G. Lougheed, with their descendants inheriting the residue.

STATHMORE ELKS

Owing to all accounts not being to hand it is not possible to arrive at the amount made at the Carnival on Stampede Day, but figures will be ready in the course of a few days.

A large number of the Calgary boys are coming down for the initiation on July 28th, and a large attendance of the local members is expected.

MANAGER HILL AND HIS AMERICAN GIRLS

Manager Hill has had heaps of trouble, satisfying the baseball players regarding who should play and they could not play with them. All is now harmony in the Club and the boys are all and all looking forward to the dance in the Memorial Hall on August 2nd, with Frover's symphony orchestra furnishing the music.

The baseball fans from Carleton Place, Ontario, are also coming, hence the baseball club are under heavy expense to secure this attraction, the members of which will almost all of them have they play in the Canada.

The weather for the most part during the past week has been warm with rain in many sections. What is mostly headed out and oats and barley are coming along rapidly. The crop is expected to be an economical one to handle on account of the general shortness of straw, which condition may also render it less liable to rust damage. Hail has struck crops in a number of districts, more particularly in Saskatchewan, but the average loss from this source is not being unusually heavy.

The situation in Alberta with a few exceptions is encouraging. Rainfalls have been experienced along the Red, Wetaskiwin, Lacombe and Hardisty subdivisions with scattered showers on the Gleditch subdivision and from Medicine Hat. Alderson on the Brooks subdivision. Southern Alberta conditions have improved with the exception of southeastern sections where many districts report moisture is needed more or less urgently.

The whole southern portion of the province could stand more rain, but with the exception of portions of the Brooks subdivision and the Taber subdivision are not suffering. Cutting will become general by August 16. Sugar beets promise a good yield. There has been very little hail in the province so far. Sheep shearing is almost completed and most ranches have shipped their wool east.

CARBELLAND

The Carbelland Community Hall is at last under way, excavation started last Monday. Those who wish to donate work should see the Sec. Mr. Forney or the President, Mr. J. Nelson.

Frank Nash had the misfortune of cutting his leg with his jack knife last Monday. The wound will keep him up for a few days.

The U.F.A. picnic held last Friday was very well attended. The ball game seemed to be the main attraction. The 1926 issue between Glenview and Carbelland was played with much vigor and won for Carbelland by hard playing.

Mr. and Mrs. L. A. Phillips are taking a trip to Banff, and Mr. and Mrs. Jamieson intend spending a few days at the famous resort.

R. Windham shipped a fine carload of steers on Tuesday.

Frank Nash, who with might have been a very serious accident, while unloading grain, having severed an artery in his leg. Mrs. Haskayne and Mrs. Holden gave aid.

Mr. and Mrs. H. O. Snider are registered at the Clifton.

Don't forget the dance to be held July 30th at 194 Nelson's barn, 1 mile east of Carbelland. The proceeds from this dance will be donated to the Carbelland Community Hall. Let's all work hard to make it a success. The hall, many farmers volunteering with teams, and are busy every day.

Margery (aged five): "I s'pose I ought to be looking for a husband now."

Spinkster Aunt: "Why, dear?"

"I heard papa say you'd been looking for one for twenty years, so I'll begin early."

HEARD ON THE STREET

Jock Taylor says you can make wonderful savings in operating automobiles if you keep in touch with the latest appliances. Since he became chief mechanic for the Keith Electric Co., he convinced Teddy Pendergast that it would be a good investment to buy a special carburetor, and was happy to notice a gasoline saving of 23 1/2 per cent.

A little later he advised buying a set of spark plugs guaranteed to reduce gas consumption by 25 per cent. One set was immediately installed and the others are ready at a moment's need. He doesn't pretend to understand the little copper attachment that he bought for the ignition is a peach. In itself it makes a saving in gasoline of 25 per cent. The new cords he has just fitted to the old bus are certainly holding up—and they are sold on a money-back guarantee to reduce the gas bill by 15 per cent. All of which is really nothing compared to the heater attachment on the intake, which positively nets a saving in gasoline of 40 per cent and is no other than the only.

The only possible disadvantage is that, with a total saving of 148 1/2 per cent, he is forced to stop the car and siphon out several gallons of gas every few miles.

Lady of House (to hobo): "Ain't you the same man that I gave a whole case to last week?"

Hobo: "No, I ain't the same man; an' vot's more, Doctor Moore says I never will be the same man again."

Piano Tuner: "I've called to tune your piano."

Lady of the House: "But I didn't send for you."

Piano Tuner: "Ah—then one of your neighbours must have."

Bill Tierney says he would like to go to Moje, where bells don't ring nor whistles blow; nor clocks don't strike, nor songs don't sound, but where there's stillness all around. No real stillness; just the trees' low whispering or the crows of the bees; the dreary tinkling of the rill or twilight song of whippoorwill. 'Twould be a joy could I behold the dappled fields of green and gold, or in the cool, sweet clover lie and watch the clouds ships drifting by; I'd like to find some quiet old boat and told its oars, and with it float along the lazy, limpid stream, where water lilies drowse and dream; just like they did in the old days down at the good old town of Amory, the prettiest place in all the world.

Wife: "You think so much of your golf you don't even remember when we married."

Hubby: "Sure I do. It was the day after I sank the 36-foot putt."

"At the end of the service tonight," said a Calgary minister, "the choir will sing a special anthem composed by the organist, after which the church will be closed for a month for necessary repairs."

A Chicago judge advocates that women scrub the floor if they want marital happiness. Pete Teifer says he knows a woman that scrubs the floor with her husband almost every day, yet he's not happy.

Fred Nye wants to know what has become of the old-fashioned girl who used to use safety pins to keep her stockings up?

Mistress: "Have you finished cleaning the brass ornaments yet?"

Maid (sore about something): "Yes, ma'am—all except your rings and bracelets."

Impatient Youth: "How long shall I have to wait for a shave?"

Bob Anderson (after careful scrutiny): "Oh, about two years, young man."

"Are caterpillars good to eat?" asked little Frank at the dinner-table.

"Affecting," said his father, "what makes you ask a question like that while we are eating?"

"You had one on your lettuce, but it's gone now," replied little Frank.

The little girl had just been told that Mrs. ... down the street, was very ill, and had a new baby girl.

She said: "Oh, pshaw, I wish my mamma would get real sick so I could have a little sister to play with. All my mamma ever gets is a headache."

Casey Noyling, the well-known henchman, says that maybe the reason why women cry at weddings is because they're married themselves.

Jock Taylor was selling a raffle ticket for one of his many Calgary lady friends, and Pete Teifer was asked to buy a ticket.

"What's for?" he asked.

"For Mrs. —"

"Who?"

"For Mrs. —, Don't you understand?"

"Oh, yes, I understand all right," said Pete, "but what I want to know is what am I going to do with her if I win her?"

Jock completed the sale by offering to take her off Pete's hands if he won, but he didn't win.

Frank Miller is quite a student in connection with financial affairs, and has made a study of the oat and wheat markets of the world. This has led him in the currency of each country, in comparison with the dollar value. He says he has only recently been able to understand the value of the Scotch farthing, which he says was originally invented so that Scotchmen could be liberal.

Tony McKinley met one of the Elk boys at the Stampede, and he was in a real quandary. He had been asked to make a purchase while in Calgary, and he couldn't remember whether it was a carcase or a cambale, and Tony could not help him because he could not tell him whether the chicken was dead or alive.

Jim Weir says on his way back from Vancouver he was much interested in a young couple who were on their honeymoon, and had been travelling all day. At last the train passed through Connaught tunnel. When they came out both looked rather mused just think, it cost three million dollars to dig that tunnel," said he.

"Well, it was worth it, wasn't it dear?" she cooed.

While "Jim" Gunn was visiting the Calgary Stampede, he heard a young friend of Frank Miller call out: "Fader, Fader, Our Izzy has just been run over by a big car on 8th avenue."

"Thank Gott, our luck has changed at last. Get John Petrie, our lawyer, quick!"

"Break! Break!" claims the reason there are so many ancient pieces on the collection plate is that we have no fashions in this country.

Pete Teifer and Jock Taylor were arguing the other night down at the camp, about how much they could know about farming, such to the disgust of "Tody" Pendergast, who was trying to solve some of the mathematical problems of how to get a meter to read ten kilowatts, with a name kilowatt service. Jock finally told Pete almost to exasperation by telling him that he was only "an arm chair" farmer, and never had any practical experience like he had had.

"Why man, your crazy," said Pete. "When I was a nipper in the old land and was working with my father, he would often meet me at 3 o'clock in the morning, but me ever the hour with a hickory stick and ask me where the devil I had been all day."

Tody threw the pair of dice, and the test and proceeded with his mathematical problems.

Ray Melvin says: "One thing about the language you learn playing golf, is that it also comes in handy when changing tires."

"What is your salary as a salaried?"

"Forty-four per week."

"Surely you cannot lead a good spiritual life on that."

"That's the only kind you can lead on fourteen per."

Constable Tate (with notebook): "What's your name?"

Mystic—"Aloysius Alastair P. Cyriacus."

Constable Tate (putting book away): "Well, don't let me catch you again."

"It took your husband fifty lessons to teach me to swim."

The Wife—"The brute, he taught me in three."

Tony Grogan: "My wife kisses me every time I come into the house."

"No investigation."

"Why did the Brown's separate?"

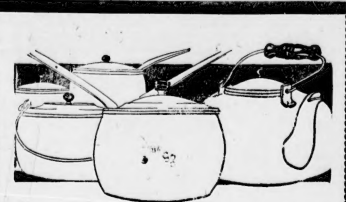

"Nobody knows."

"How dreadful!"

Does your wife get angry if you don't talk to her?

"Man alive, no. Only if I don't listen."

Recently three couples at Chicago were married in No. 13 death-in-an-aid convulsion in 13 minutes after 13 o'clock. Thirteen guests with thirteen black cats shattered thirteen mirrors. Nothing further has happened at present, so far as we know.

Box 52 Rockyford.

ROCKYFORD

Miss Irene Anderson, of Millet, Alta., is at present on a visit to her grandparents, Mr. and Mrs. D. Horne.

Several fishing and camping parties have left Rockyford for the mountains. Messrs. A. W. and William Miller, Gillingham, T. Longbottom are among the party.

Miss Agnes Peterson has returned from Calgary.

There is a rumour that the Wheat Pool have bought the National Elevator at Tule.

Mr. and Mrs. Arthur Bell, of Bassano are at present on a visit to Mr. and Mrs. W. Bell.

Although we had a shower of rain this week, one-fifth of an inch, the ground is still very dry, and a good rain is badly needed to help fill out the heads. Crops are looking very well indeed, considering the heat and drought.

The weed inspector is busy in the district, but it seems rather late, as both sink weed and mustard have seeded, and a good crop of both is assured for next year. Canadian thistle is now in flower, and no better time can be found for cutting it.

When cutting weeds, do not throw them into irrigation ditches, as, apart from the water carrying the seeds, the weeds themselves plug up the gates, causing, in some instances, serious trouble.

Mr. Alex Sangster last week took a trip over the Banff-Windermere road.

Mr. and Mrs. Harvey Katterhagen have returned from their wedding trip. They travelled over 4,000 miles in a car, visiting friends in the States. Harvey says that the crops here are far ahead of any he saw on the journey, and while we were complaining of the heat, 95 in the shade, he was experiencing 110 in the shade if you could find it. All the irrigation projects he visited in the States were running full blast. In some cases the rivers were dried up, so much water had been taken for irrigation purposes.

Copy of letter received by a Rockyford firm:

Gentlemen—I get the pump with I by from you, but why for God sake do you don't send me the handle. What use of a pump when I can't handle it. I use to me my customer, saying you don't send me the handle. I've been days and my customer is hotter like hell for water from the pump. You do he is hot summer and the wind he no blow the pump. She try to handle so with the hell I can't do with it. If you don't send me the handle please quick I send ask back and I can't enter some pump from Strathmore or Calgary.

Good bye.

Yours truly,

Since I ride I find the dam handle in the box, excuse to me.

The Rockyford United Church choir and a few friends took advantage of our day services, and went for the evening hour of worship to the United Church at Rosebud. The congregation in Rosebud appreciated this. No doubt there was added enthusiasm in the music and worship because of so friendly a visit.

Sunday, July 18th, was a Missionary Rally Day on the Rockyford circuit of the United Church of Canada. The services of the day were held in the church at Rockyford, and Miss West, a missionary on furlough from northern India, gave very instructive and inspiring talks on her work, and the religious conditions of India.

The morning worship was at 11 a.m., next a luncheon period followed by a social hour, with Miss West displaying a large collection of articles from India, and pictures, and answering questions was most interesting. We were made to realize the glorious freedom of our Christian religion by contrast. It was indeed a day of much enjoyment for those privileged to attend.

Reg. O. C. Hockin, B.A., B.D., was formally inducted into the pastoral charge of Rockyford on Monday evening, July 12th. Rev. W. McKenney conducted the service and Rev. P. Halstead, of Rosebud, preached and addressed the congregation. He reminded

Rockyford Sports

Monday, July 26, will be a great day, in fact all races will lead to Rockyford, where one of the best programs has been arranged for a real Sports Day. Horse races, open events, for local horses only is creating no end of rivalry. For the baseball fans, the game between Carlton and Rockyford is expected to be a thriller.

A small program of foot races for the ladies and gentlemen, and the boys and girls, will be most interesting while heaps of fun is expected from the apple diving contest.

At Rockyford Hall at 6.45 p.m. "Over the Hill" will be presented, and at 9 o'clock the days sport will wind up with the big dance, with the July Boys' pipe orchestra furnishing the music.

Make your arrangements to come to Rockyford on Monday, and enjoy a real outing.

STANDARD

Mr. and Mrs. A. Milne and daughter, Eva, returned from vacation last week.

The Danis Hotel has received a new coat of grey paint, which has greatly improved its appearance.

A new wooden sidewalk has been laid from the bank corner to the Marius Rasmussen corner. This was a much needed walk. It will be especially appreciated during the muddy season in the fall and spring.

Two new Sport Model Ford Roadsters were purchased in Standard last week. The owners are B. E. Hardesty and Mr. Martin Neilson.

Messrs Leo Larsen and Tony Jensen spent a short holiday in Banff recently.

Miss Martha Webb spent a few days in Calgary last week. Mr. Webb was also a visitor in the city.

Mr. H. C. Farthing returned from his vacation on Friday. Mr. Farthing visited the Multiplex Mine at Camboorne, B.C. on his return trip.

The United Church Ladies Aid met at the home of Mrs. Paul Bushman last Thursday afternoon.

The annual U.P.A. and U.P.W.A. picnic was held at the Bow River last Saturday, when nearly all the members and their friends enjoyed a day's outing. Sports and picnics were the two main features of the day.

Messrs E. Wirt, H. Madson, S. Harding and H. Penske left by car on Thursday morning for Golden, B.C.

From Golden they will travel by train to Arrowhead via Revelstoke, and from Arrowhead by boat to Boston on the Arrow lakes. Leaving Boston they will drive to Camboorne, and there they will visit the Multiplex Mine, in which a number of Standardites are interested. They expect to be gone a week or ten days.

Mr. and Mrs. George Webb entertained Mr. and Mrs. W. Drydale and Mr. and Mrs. A. Vanson on Sunday evening to dinner.

ANOTHER SON FOR NEW SETTLER

Leaving England with four children to make a new home on the land in the vicinity of Saskatoon, Mr. and Mrs. A. Morris, reached Winnipeg with five children, a husky new son having added his name to the cradle roll between Armstrong and Alhambra on the Continental Limited. Being born on a Canadian National Railway train in northern Ontario should surely entitle this lad, in later years, to write "Canadian" in the nationality column. The family proceeded, after a few days in Winnipeg, to their new home in Saskatchewan.

ed us of our fellowship in the various lines of church work, and the necessity of each one being faithful in their own place. We are indeed workers together with God. Following the charge to the minister, which was given by Mr. McKenney, the congregation proceeded to the basement, and in a suitable manner made Mr. and Mrs. Hockin feel very welcome in their new home and duties.

THE Strathmore & Bow Valley Standard PRINTERS AND PUBLISHERS

ROSEBUD

The Sports Day was a big success as far as crowds and a good time went. The home team winning the ball game made everybody happy. There were the usual small ones, but the best of all was the ball game between the "Leans" and the "Fats". Naturally the thin men won. The Catholic ladies served food and sold drinks all day, and at the dance at night. Everything was sold very reasonably, and the ladies cleared a big sum.

The Ladies Aid met socially at the home of Mrs. Henry Clark Thursday. Ten members and six visitors were present, and a most enjoyable time was had.

Don't forget the Garden Party Tuesday evening, July 27, at Comstock house. Bring your garment or fancy work made from a flour sack. You may win a prize.

Mr. and Mrs. Frank Archer have returned from a visit in Edmonton and vicinity.

Mr. Archie Gow gave a delightful piano recital at the home of Mrs. Henry Clark Sunday afternoon. She will also be in charge of the musical program at the Garden Party, July 27.

Mr. Geo. Defoe has returned from Edmonton leaving his family there for a few weeks.

Mr. and Mrs. R. W. Brunner, son Dale, and C. H. Comstock are camping at Buffalo Lake.

U.P.A. picnic July 31. Come all!

TO OUR READERS

The Standard will be glad to have the names of visitors in town and accounts of various social events for publication. Such communications should be signed and the address of the sender given. Readers in the surrounding districts are especially invited to send us news. We want to cover the whole of Bow Valley. Make the Standard and Your Home Paper.

HUTTERITES PURCHASE BEISEKER LAND

Paying more than \$150,000 cash for 4,080 acres, six miles east of Beiseker, the Hutterites will establish another colony, similar to that which has been operating near Rockyford for some years. Fifteen families, comprising about 65 persons, will locate on these new holdings. The colony buildings will be centred on what has been the J. C. Oswald farm.

The vendors are Messrs Fred Davis, ex-M.P., J. C. Oswald, Andrew Bostel and W. H. Schiselt, and included in the sale was a parcel of C.P.R. land. Mr. Davis sold only part of his extensive holdings in that district. The deal was made by John J. Goetz, until recently connected with the firm of Karge and Mateman.

The purchasers in behalf of the Hutterite colony, were Paul Stahl, Jacob Teichert, and George Hofer. They are the executive heads of the colony. The Hutterites are holding their land near Rockyford, but have been forced to secure more land on account of the increase in their numbers.

Self-contained Colony

The Hutterite colony will be self-contained, so far as possible, just the same as is the Rockyford colony. The colony operates its own stores, has its own boots and clothing shops, and its own church, school and community laundry. Everything is pooled and the families are supplied with what they require, including money, by the secretary-treasurer of the colony. They occupy a group of buildings in the community centre.

SPECULATORS MADE MILLIONS ON FRANCES

VENNA, July 20.—Speculators are reported to have made a huge killing on the slump in the French franc. Their gains since Saturday are estimated at \$12,000,000. Prominent operators, who were almost ruined in 1924 when the franc was saved by the Morgan loan, are said to have more than recouped themselves.

HARRY THORBURN'S NEW DINING SERVICE

On Stampede day Harry Thorburn opened to the public the dining room in connection with the Strathmore Hotel, and was greatly pleased with the business of the day. Harry had the painters, carpenters, and decorators at work for some time, with the result that he has one of the brightest and most attractive dining rooms in the Bow Valley.

He is not conducting a restaurant, but will serve meals week days from 7 to 9:30 a.m., lunch 12 to 2 p.m., and dinner 6 to 8 p.m., with special hours on Sunday.

With a competent serving staff and up-to-date chef, together with the best that the market affords, the public can be assured of a satisfactory service at a reasonable price.

"Fete" Teller says the staff look after him so well, and the place is so like "what mother used to make" that, as a matter of fact, he takes to take time off long enough to get on Kelly's pay roll.

THE GUN CLUB

Last week most of the members of the Gun Club were busy at the stand and only five regulars lined up at the trap, under the generosity of Mat Barbor. "Mat" has been feeling pretty well upon about Rexall's attention to the affairs of the Tennis Club, and giving a lot of his time to conveying the people into "poncy horse deals" at the Carnival.

He took the truly loyal hunch, gave the traps, and they came back with bells on, and very boisterous about the scores that had made; Barbor being left with 21, while "Jim" Barnett and Broadbent only missed one bird each out of the "twenty-five" shots.

Now this all listened very nice for a couple of days until one of the old guards, who has been keeping mighty close tabs on this bunch, came to the conclusion that there was a sinner in the woodpile some place.

He is insisting upon an investigation as he claims he has documentary evidence to prove that they all had more than 25 shots.

Barbor has been "pussy footed" around trying to get the investigation stopped, but this "wise old guy" says he doesn't care a continental what Barbor wants, he is going through with the investigation.

"Rexall Red" says he went shot again until the whole bunch are given a certificate of character, and thus the matter stands.

In the meantime the reported scores, which the Standard cannot vouch for, are as follows:

M. Barbor	21
L. West	22
M. West	23
Broadbent	24
Jim Barnett	24

THE RING

DEMPEY-TUNNEY FIGHT SEPTEMBER 16 CHICAGO—The Chicago Herald and Examiner says it has definitely learned that the Dempsey-Tunney heavyweight championship fight would be staged in Chicago, September 16. The paper said that formal announcement would be made soon by Tex Rickard.

The game played last Saturday with the Incogs was most enjoyable, and the local captain was congratulated by the visiting skipper for having such a nice team, and expressed himself that it was the nicest team they had played this year, which speaks volumes for the cricket spirit of the local team.

The Strathmore batted first and made the first 108 for the club. There was considerable excitement when Knyvet ran the score to 100 by cutting a 2 in the slips. It was the most defensive game we have put up yet, and considering it was against such bowlers as Nettleton, Stephens and Small, the Incogs were not full strength, and as one time it seemed we had a good chance to win with three wickets down for six runs, but the good battery of G. H. Nettleton and E. H. Stevens was accountable for 105 runs.

The results of the last match prove that Strathmore needs more practice, which we think would be the means of their standing in the league being much improved.

Members wish to thank Mr. A. E. Spurgeon for his kind donation of a roller to the club, which has been needed and more appreciated, also Mr. R. Page's donation of \$10.00 for the bat fund, was also much appreciated.

Next Saturday the Municipal play on the local ground, when we will have our hands full again.

BASEBALL

Last Sunday Strathmore and Carleton met at Strathmore. The game was not as good as usual, being a little raggy in spots, but finally Strathmore succeeded in winning out.

Next Sunday Strathmore and Glenview play at Strathmore, and the fans are looking forward to a good contest. The last time these boys met the score was 2-1 in favor of Glenview. Manager Hill thinks Eddie Crellin can put it over the boys from across the river, and expects a good crowd to see the game.

A GIRLS' BASEBALL GAME

On August 24d, a girls baseball team, the American Athletic Girls, will play the Strathmore team.

These girls have been playing all through Western Canada, and have been giving a fine exhibition of the American game. Manager Hill is having an awful time preventing both Eddie Crellin and Breton, each of whom want the honor of pitching against these Athletic girls. No matter who is given the privilege, there is bound to be one sad boy.

Jack Greeng says he wishes he had been practicing the art of pitching.

BALEHEAD

Married a while back, Mr. Ralph Buzard, of Rosebud, and Mrs. Buzard, formerly Miss Anne Kautz, of Dale, were given a wood-rail welcome and shower at the home of Mrs. J. Grand Thursday afternoon, July 15, who deserves great credit for fostering the event. The Brand home was fittingly decorated with lovely bouquets of flowers. Useful and beautiful gifts were offered the bride and bridesroom by a number of the young ladies, after which a delicious lunch was served by the hostess at four o'clock. Those present at the party were Mr. and Mrs. Kautz, the Misses Elsie, Mabel, Hazel and Lillian Kautz, Mr. J. Brand, Miss Nancy Brand, Mrs. Thomson, Margaret Thomson, Mrs. Jas. Rae and Miss Janie Rae, Mrs. J. Forman, Miss Leona Forman, Mrs. Ray Newton, Mrs. Charlie Brabbins, Mrs. P. S. Pederson, Mrs. J. Holmes, Mrs. J. H. Dixon, the Misses Bertha Alice Newton, Mrs. L. Nelson, Miss Ione Dalton, Mrs. C. Hunter, Mrs. Bert Bowman, Mrs. J. Hahle and Miss Jean Thomson, Mr. and Mrs. Buzard and left for their home at Rosebud on Sunday evening, and with them go the very best wishes of the whole community.

Mr. and Mrs. Bert Bowman, who motored up from Wilcox, Saskatchewan, are spending a few days with Mr. and Mrs. Harry Portney.

The Beben family accompanied by Miss Peggie Rothwick, have made Hann their playground for a week.

Mrs. Roy Thomas returned from Calgary last Thursday, where she has been in the hospital. We are glad to see her much improved.

Mr. and Mrs. C. Brabbins, accompanied by Charlie Chilton, are spending their holidays with relatives at Kerna, Alberta.

Mrs. R. Hornsby is visiting at the home of Mrs. Jack Halkins, of Calgary for a week.

Mr. and Mrs. P. W. Randolph, their daughters Miss Nancy and Winnie, and son, Bob, are spending an enjoyable holiday at the coast.

With the exception of one or two choice events and with most every body moving off the stage, and going to distant grounds, nothing else happens on the home field.

There should be many a good story rolling in pretty soon, however, of the catch, caught or almost caught. We'll see in another week.

After two weeks visit at the homes of Mr. and Mrs. Jack Hahle and Andrew Van der Volder, Mr. and Mrs. MacDonald and daughter returned to their home in Calgary.

The families, Wheeler and Ellis, are making a stop at Waterton Lake on their holiday-tour this year.

Mr. and Mrs. Cleveland and sons, who started out on a motoring trip down the Windermere road some time ago are now visiting with friends at Spokane and having a gay time.

Our Johnnie follows the example of Alfred the Great. He will put that particular touch on the morning bath of pancakes. Aspiring at greatness by and by.

ARTHUR MEIGHEN AUTOCRAT SAYS PROGRESSIVE

— O —

"If there had been a stable government, the truth of the conditions revealed by the customs enquiry and the Duncan report would never have come out," R. Gardiner, U.F.A. member for Acadia, said to the Albertan yesterday. "It was the existence of a group such as the Progressives that made possible the investigation of the dreadful state of affairs in the customs department."

Mr. Meighen appears to have been the real autocrat at Ottawa, and apparently very unwisely advised the governor-general, Mr. Gardiner said. "There was no reason why the legislation passed through both houses, such legislation as rural credits, could not have been assented to. It was apparently Meighen's arbitrary act in closing down parliament which prevented assent being given."

Mr. Gardiner said that no direct promise was given to justify Meighen in advising his excellency that he could form a government to get supply through the house, and even if some underwriting had been given it would have been invalid for the six so-called ministers claiming support in the house to get supply through. They had no more right to put supply through than any other six members of the house. Meighen's manner in asking for support in the house was wrong, and he had no justification in asking for support. If he had progressed for six weeks and then brought in supply.

Robert Forke is still the chairman of the party, though he was not the leader in the sense that Meighen was the leader of the Conservative party, Mr. Gardiner said.

MATURING IN OAK CASKS IS EXPENSIVE, BUT IT IS NECESSARY TO THE PRODUCTION OF A WHISKY OF THE "QUALITY" OF

"CANADIAN CLUB" WHISKY

CHURCH BULLETIN

STRATHMORE UNITED CHURCH
The United Church Board granted the minister leave of absence for the 18th, and the 25th of July. The board also requested that the services of Mr. Eutenmeister, Miss W. W. be sought to conduct the service on those two Sundays. Mr. Eutenmeister, who did fine work as superintendent of Strathmore Church School, will preach on Sunday next. Miss W. W. has been one of our efficient missionaries in India, will preach on the 25th. Regular times each Sunday at Namaka, Cheadle, and Strathmore. The minister will expect to take up his work again on August 1st.

ACTING: H. HOWE, Minister

ST. MICHAEL AND ALL ANGELS CHURCH

July 25th—
11:30 a.m., Holy Communion, Carleland.

7:30 p.m., Evensong, Strathmore. The Sunday School picnic will be held in the park at 4:30 p.m., Monday, July 12th.

A. D. CURRIE, Incumbent

ROMAN CATHOLIC CHURCH

1st Sunday of month, Mass at Carleland 9 a.m., Strathmore 11 a.m., 2nd Sunday of month, Mass at Carleland 9 a.m., Strathmore at 11 a.m.

Pastor: Rev. J. E. DUGGAN.

CARLELAND

Harold Smith, while attending the stampede and races, thought he had better look up his friend Tony Grosvenor, who was holding a reception at the "Salts Rest," where the League of Nations from Carleland registered, and Tony couldn't get them out for a week. Harold had placed his last dime on St. Angelina, and the good thing didn't come across right. He was busted, good and plenty. However, the walking was good, and he hit the heavy ball for East Calgary. Smitty not a man and woman ahead of him; he was preoccupied thinking of a beam tip that Grandpa had put on the pointer, he did not pay much attention to them. However he could not help but notice that the woman was bullying the neck little fellow who trotted in front of her with downcast head.

Suddenly the woman saw a bull coming down the road behind her. She took refuge in the hedge, but her companion kept on unconscious of everything but his woes. The bull caught up with him and sent him spinning into a ditch. Then it continued on its wild career.

As he crawled out of the mire he saw his wife coming towards him. Picking up a little courage, he whispered:

"Marry, if you hit me like that again you'll really get my temper up."

Smitty says if he had not actually seen the incident, he would not have believed that any man could have such self control.

HEARD ON THE STREET

Pat Lady (arriving breathless, at the Memorial Hall): "Am I late?"
Manager Hurtle: "They have already played one act madam."
Pat Lady: "Which one?"

John Taylor says his idea of useless education is teaching the modern boy the number of square feet in a cord of wood.

Agost Perry: "The train goes to Winnipeg and points east."

Old Lady: "As long as it takes me to Winnipeg I don't care which way it points."

A firm advertising for a salesman received a reply from a man who said that he was the greatest salesman in the world. They engaged him and gave him three lines of goods to sell anywhere in the West. They expected him to do great things.

After he had been a week, and he had sold over a dozen, they were surprised to get a telegram saying: "I am got the world's greatest salesman. I am the second best. The first salesman was the man who loaded you up with these goods."

After God had finished making snakes, toads and vampires, he had some awful stock left, with which he made a knocker.

A knocker is a twofold animal with a corkscrew out, a waterlogged brain and a combination back-bone made of jelly and glue.

Where other people have hearts, a knocker has a tumor of decayed principles. When he goes down the street, honest people turn their heads, but angels in heaven weep tears of blood, and the devil closes the gates of hell to keep him out.

When a cautious man buys yeast, sugar and vanilla's the grocery store, it is considered bad form to show him your own line of corkscrews.

"Are you married?" asked the magistrate sternly.

"No, your honor," replied the man who had been locked up over night for intoxication. "I got these scratches on my face by falling against a barbed wire fence."

Auntie: "Well that was nice wasn't it? You like having a ride on uncle's knee, don't you dear?"

Small Nephew: "No, but I had a ride on a real dog key yesterday."

A young lady canvasser called at Bobby Hamby's pool room and said: "I beg your pardon, sir, but would you like to help the 'Working Girls' House?"

"Certainly," replied Bobby, "where are they?"

Anxious English bride (as young husband answers on piazza)—"Oh, darling, I'm so glad you've come. We heard that some idiot had fallen over the cliff and I felt sure it was you."

Bill Tierney remarks that many a romance that began with a girl sitting on a fellow's knee has ended in her reading on his toes.

Miss Alisa Mellon was given ten million dollars as a wedding-present by her father, the Secretary of the Treasury, who she was married to Washington recently. She refused to use the word "obey" in the marriage ceremony.

"Well, would you, if you had ten million tons?" asks one of the girls at the telephone exchange.

A Toronto tourist, leaving the train at Strathmore, asked the porter the price of his average trip. The porter replied that the average amount was \$100. The porter carried the silver coin affectionately and said: "Yes, boss, but you do do fast reason what has come up to do average."

Bob: "You wonder is wonderful. Think o' herin' the salmon free the drink in yerainbar! an' no collection tax worry about."

Man: "Aye, but ye ken ye ha'e to pay the license tax government's free ye fan listen!"

Bob: "Och, aye—I thought there was a catch in it somewhere, but I can go to Arnold Motors, where Spence-Hughes has paid for the license."

Bill Tierney says he hopes to die before he reaches the age when he thinks a pig-tail tied round the ribbons is more attractive than a pretty ankle.

"Short Dresses Are Fashionable" is the headline in the London Times. But whether they will go higher or lower is the question that is satiating Jey Melvin.

CHEADLE

Mr. and Mrs. Tim Killeb say that quite have left for son-her Mr. Killeb.

Mr. and Mrs. Thayer and children are holidaying at the coast, visiting Chee's mother and brothers at Portland and Mrs. Thayer's mother at Vancouver.

Mrs. W. E. Keer is expected home next month from a year's visit to New Zealand.

Mr. and Dick Thompson spent a few days during the past week at J. G. Miller's.

Miss Emma and Edna Weidner are spending their holidays visiting relatives and friends in the States.

The carpenter has completed their work on the Ladies Club Hall. There is just the basement floor, painting, and furnace to install now.

Mrs. Grant Craig is spending a few days with her father, Mr. Wm. Robertson, who is dangerously ill in Calgary.

ELEVEN MILCH COWS UNABLE TO PASTURE DOWN 8 ACRES CLOVER

TABER—Having sown his eight acres where fall wheat was grown last year to sweet clover, J. R. Bassett has found that the local stock is not sufficient to eat it down after pasturing on it this spring on his town lot irrigated four acre farm. As ten head were not enough, Mr. Bassett recently bought another cow and turned her in.

The sweet clover is still growing too fast and now he is planning to use the mow and this is the farmer who was told he could not handle twelve head of cattle on his forty acres. But J. R. is a fervent capitalist on the Leubridge Experimental Farm, and turned in a course of lectures there last winter. And the town lot irrigation is considered bad form to show him your own line of corkscrews.

The miners who took up irrigated tracts, and following his advice, gave thorough treatment to their farms to have some wonderful crops coming this fall under the lateral provided by the town.

72 YEARS MARRIED
MONTREAL—Seventy-two years of married life is the unique matrimonial record just celebrated by Mr. and Mrs. John Williamson, of Point St. Louis.

That time ago, John, a lad of 20, took his 16-year-old bride into his father-in-law's home. The couple enjoyed good health and retain their interest in the questions of the times as in early Victorian days, when they were young.

BRITAIN SEES WEST AS TRADE FIELD
"Western Canada is being increasingly viewed by our manufacturers and merchants of Great Britain as a promising field for the sale of their products," said A. E. Pollard, newly appointed British trade commissioner at Vancouver, recently. Mr. Pollard was for five years head of the Canadian section of the Department of Overseas Trade, London, and succeeded J. H. Beale, transferred from Vancouver to Wellington, New Zealand.

The Kimberley Press remarks: "A dull half an inch thick, and disheartened at Alberta, has been sent to Ottawa, without the formality of an election."

"What was the name of the last station we stopped at, mother?" said a small boy at the C.P.R. station.

Mother: "I don't know, he quit."

"Is a play you don't know, mother, because Johnnie fell out of the train window there?"

Fred Nye says the average baby is so fond of its father that it sleeps during the day while he is busy, so it can stay awake all night and enjoy his society.

"Let me see," said the minister who was filling up a marriage certificate and had forgotten the date, asked: "This is the fifth, is it not?"

Man: "Aye, but ye ken ye ha'e to say 'this is only my second.'"

"A burglar got into my house at three o'clock this morning, when I was on my way home from the club," said a Calgary traveller.

Innocent Man: "Did he get anything?"

Traveller: "He certainly did! The porter says it is the general hospital. My wife thought it was the general."

The Okotoks Review recently contains the following item: "Twice as much of space and the rush to the Stampede, several births and deaths will be postponed until next week."

HAIL INSURANCE

Now is the hazardous time for your crops. If you're not insured, insure now—if you are, you had better place a little more.

See me at once. I handle all lines of Insurance.

A FEW OF THE BIG IMPROVEMENTS BUILT INTO THE LIGHT RUNNING

New John Deere Binders

Lighter Running—resulting from the use of eight sets of roller and ball bearings, self-aligning bearings, better lubrication and easiest possible handling of the grain.

Better Oiling Facilities—It is easy to get to every operating part with plenty of oil—thus reducing wear and tear. The parts hard to oil on other binders are easy to oil on the John Deere.

Variable Capacity Elevators handle smallest to largest volume of grain in the easiest way, without waste and without clogging. Simple in design.

Improve Guard and Sickle—Cutting operates in feet of guards like a mower knife. Sickle is replaced with round-headed rivets—no filing flush of rivet ends to maintain shear cut—easy to repair.

Improve Reel lifts and shifts unusually easy. Reel pipe turns on easy-running chilled bearings and is gear-controlled at both ends—reel cannot sag or whip.

Easily operated Bundle Carrier—a boy can easily raise and lower it. Simple, great capacity, does not scatter bundles. Stays in proper adjustment. Automatically swings back if it hits an obstruction.

All-Steel Quick-Turn Tongue Truck—Wheels hold to the ground and take side draft and weight from horses. Keeps binder running straight. Flexible axle permits both wheels to conform to uneven ground. All steel construction—lasts practically forever.

Implement Dealer, Strathmore, Alta.

NO ROOM FOR THIRD PARTIES BROWNLEE MAY GO WITH WHEAT POOL TO AUSTRALIA

KAMLOOPS, July 14—John A. Fraser, M.P. for the Cariboo, was welcomed home from Ottawa, and a reception given him in the Masonic Hall.

"Dissuades from your minds that there is anything in this constitutional question of the dissolution of the house," said the member to his constituents.

It is something brought forward by Mr. Mackenzie King and his followers to belated the issue, which will be to same as engaged the attention of the people in the election of last October, namely, the tariff. The Conservative party is going to the country on that, and I trust the Liberal party will follow that. We do not wish anything but a moderate tariff, which will give solid content protection to our industries to save the reputation from migrating over the line."

Mr. Meighen endorsed Mr. Fraser's statement that there was no room for third parties in the commons, declaring that at times the political face of the country had lain in the hands of a few men who did not represent national opinion. Mr. Meighen had been endorsed at the last election by a majority of over 100,000 votes over Mr. Mackenzie King, yet a handful of men from the prairies had really decided the power. He went on to insist that the Conservative party was free from the Progressives, had promised them nothing, and was now appealing the electorate on the large question of tariff.

Customs Scandal
"This great customs scandal at Ottawa," concluded the member, "we believe to be only part of the mess that we shall have to clean up if we are elected. Next to the leader, Mr. Meighen, the man who is outstanding in the whole Dominion is the Hon. H. H. Stevens, whose courage has been conspicuous in the uncovering of a huge loss to the taxpayers. Any man less tenacious than he would have been defeated by the rich circle of interests, which struggled to suppress the gravest scandal in the public life of Canada since Confederation."

Mr. Fraser's vote of appreciation of Mr. Fraser was passed by the meeting and a resolution to support him unanimously in the convention.

ALBERTA PREMIER COAL PRODUCTION

During 1925 Canada produced some 12,134,968 tons of coal, valued at \$19,251,351, according to a report issued by the Dominion bureau of statistics. Alberta held the premier position with an output of 5,649,011 tons, which was 679,302 tons above 1921 production. British Columbia showed a slight advance of 2,345,822 tons in 1925.

There were 55,532 people, including 15,412 salaried employees, engaged in the coal industry in 1925, to whom \$32,500,309 was paid in salaries and wages.

Mr. Fred Davis' Work in Parliament

If ex-Premier King had not run away from the vote of censure on the customs scandal he would still have had to face the vote proposed by Mr. Coote, a vote of condemnation. Mr. Davis had sought to restore to Alberta her natural resources. On Mr. Coote's resolution the majority of the Progressives would have voted against the Liberal government and it would have been defeated.

The resolution followed and was of necessity more explicit than the resolution earlier brought in by Mr. Fred Davis, member for East Calgary. Mr. Davis had sought to restore to Alberta her natural resources. On Mr. Coote's resolution the majority of the Progressives would have voted against the Liberal government and it would have been defeated.

Mr. Davis' resolution actually precipitated a condition—the dividing of the Progressive support for the King government—which eventually resulted in the resignation of that government.

Very seldom does a new member, in his first session in Parliament capture the attention of his house and the country as Mr. Fred Davis did on this occasion. It became a big occasion owing to the undeniable merits of all that Mr. Davis said in his resolution, and in his able argument in support of his motion. A definite pledge had been given outside the House and in the Speech from the Throne. This pledge was to restore the natural resources to Alberta. The government was proposing to violate that promise and to ignore the undertaking made in the Speech from the Throne. The member for East Calgary was convinced in his own mind that if this wrong were plainly presented to the House it would be condemned by Western farmer members as well as by Conservatives, and this proved to be the case.

In the coming election Mr. Fred Davis is safe to say, will be the Conservative candidate in East Calgary. He fought a remarkable and successful fight in the context of last session. Those who supported him then, with others who approve of his action as the champion of Alberta's rights to her natural resources, will support him in the next election. There is a strong feeling in Calgary that he should and will be returned to Ottawa, where to carry on the good work that he has already performed in Parliament.

—Calgary Herald

EGG PRODUCTION INCREASES 70%

—

Egg production in Canada has increased by over one hundred million dozens, or seventy percent, since 1920, according to a recent statement issued at Ottawa. In 1922 Canada produced 249 million dozens eggs and consumed 24.8 dozen per capita, as compared with 149 million dozens produced and 14.6 dozen per capita consumed in 1920.
